

EV charging Plug TYPE 2 Female (Car-Side) 16A - 11kW

Work for most of EV cars

- Meet IEC 62196-2 2010 SHEET 2-IIb (Mennekes, Type 2) EU European standard
- Nice shape and easy to use
- protection class IP54(in mated conditions)

Parameters

- Rated current: 32A (suitable for 16 or 32 amp applications)
- Working voltage: 240-480V AC
- Insulation resistance: > 1000M Ω
- Terminal temperature rise: <50K
- Withstand voltage: 2000V
- Contact impedance: 0.5m Ω Max
- Vibration resistance: Meet JDQ 53.3 requirements
- Working temperature: -30°C ~+ 50°C
- CE, TUV approved

Materials

- Shell Material: Thermo Plastic (Insulator inflammability UL94 VO)
- Contact Pin: Copper alloy, silver or nickel plating
- Sealing gasket: rubber or silicon rubber

Suitable for all electro vehicles with Type 2 socket:
